## SUMMARY

Full Stack Developer & IT 3rd year student, with hands-on experience in building dynamic web applications using the MERN stack. Skilled in developing responsive UIs, RESTful APIs, and real-time features. Passionate about building scalable projects and continuously learning new technologies.

## PROFESSIONAL EXPERIENCE

**Full Stack Developer Intern**                                    06/2025 – 08/2025
**Zestos Ventures Pvt Ltd (Gharpadharo)**
- Contributed to the development of the company's **Careers website**, handling both frontend and backend integration.
- Worked with the team to build features, fix bugs, and manage APIs using the MERN stack in an Agile workflow.
- Participated in daily stand-ups & weekly meetings , collaborating on progress, blockers, and deployment plans.

## SKILLS

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React.js, Redux Toolkit

Backend : Node.js , Express.js, MongoDB , Mongoose, Firebase, JWT, Socket.IO

Tools : Git , GitHub , Visual Studio Code , Postman , Vercel , Netlify , Render

## PROJECTS

**devStackr : Link** 🔗                                           06/2025 – 07/2025
**Tech Stack:** MongoDB, Express.js, React.js, Node.js, Socket.io, Mongoose, Redux Toolkit, Tailwind CSS
- Built a full-stack social platform for developers to connect, collaborate, share ideas, and grow together.
- Implemented customizable user profiles with bio, skills, GitHub, portfolio integration, and profile picture upload.
- Developed advanced post management including post creation, editing, deletion, likes, comments, and media attachments.
- Enabled secure real-time 1-on-1 chat using Socket.IO 🔗 for instant collaboration and project discussions.
- Added robust JWT-based authentication with protected routes, session handling, and Redux state management.
- Designed a responsive, SEO-friendly UI with dark mode, smooth animations, and developer search functionality.

**E-Commerce : Link** 🔗                                          01/2025 – 02/2025
**Tech Stack:** React.js, Redux Toolkit, Tailwind CSS, Firebase
- Developed a responsive and feature-rich eCommerce web application where users can browse a wide range of products, search items, and view detailed product information.
- Implemented category-based filtering and dark/light mode toggle for enhanced user experience across devices.
- Integrated Firebase authentication to enable secure user SignIn and SignOut functionality.
- Built add to cart, order tracking, and order history management using Firebase Cloud Firestore as the database.
- Used Redux Toolkit for global state management and React Router DOM for smooth page navigation and routing.

**Chat Bot : Link** 🔗                                            03/2025 – 03/2025
- **Tech Stack:** React.js, Tailwind CSS, Redux Toolkit, Groq API
- Developed a fully responsive chatbot web application with an intuitive and modern user interface.
- Integrated Groq API to enable smart AI-based conversations and voice assistant functionality using Web Speech API.
- Implemented dark and light mode toggle to improve overall accessibility and user experience across devices.

## EDUCATION

**Bachelor of Science in Information Technology**       04/2023 – present | Chandrapur, India
**Gondwana University , Gadchiroli , Maharashtra**

## CERTIFICATES

IBM skilsBuild : Web development fundamentals

Accenture : Developer & Technology job simulation

Linux Foundation : Node.js Fundamentals
